

CSA15- CLOUD COMPUTING AND BIG DATA ANALYTICS

Aim:

To create a simple cloud-based **Student Information System** using Zoho Creator to demonstrate **SaaS**.

Procedure:

1. Open Zoho Creator and create a new application.
2. Create a form named **Student Information**.
3. Add the above fields with their respective field types.
4. Configure courses and grades with suitable options.
5. Save the form and enter sample student details.
6. Submit and verify the student information.
